- ☐ The success of the COLUMBUS ELECTRIC in Houston and throughout the country is due to their excellent construction and system of maintenance that other makes of electrics do not receive.
- ☐ The COLUMBUS 1910 models have five speeds, and one can go at the rate of two miles or twenty-five miles per hour.
- ☐ The hand control of the COLUMBUS is so simple that a child of 10 or a lady of 70 can drive it with perfect ease and safety.
- ☐ Call us over the telephone and our representative will take pleasure in calling and explaining in detail the manner and cost of operating, etc.
